

RAGHAVENDRA R

SOFTWARE TESTING

PROFILE

Quality Analyst with nearly 2 years of experience at Workline, specializing in end-to-end software testing and process optimization. Adept at leveraging Generative AI and AI-powered testing tools to accelerate test case generation, automate repetitive tasks, and enhance bug detection accuracy. Proven expertise in root cause analysis, cross-functional collaboration, and aligning QA strategies with customer requirements to deliver high-performance software.

WORK EXPERIENCE

Workline

AUG 2024 - MAR 2026

Quality Analyst

- **Engineered end-to-end test strategies**, including manual functional, regression, and UAT protocols, ensuring 100% alignment between business requirements and software delivery.
- Architected comprehensive test suites for **web and API-driven** applications, utilizing Azure-integrated environments to validate complex data ingestion and transfer processes.
- Optimized the defect lifecycle management process by **conducting deep-dive root cause analysis (RCA)**, significantly reducing production bugs and accelerating fix verification.
- Directed cross-platform compatibility testing across diverse browsers and devices, ensuring a seamless and responsive user experience for high-traffic web applications.
- **Pioneered manual-to-automation transition workflows**, identifying high-priority test cases for Selenium/Cypress frameworks to improve long-term testing scalability.
- **Facilitated collaborative Agile workflows** with developers and BSAs during sprint planning and grooming to define clear acceptance criteria and enhance test coverage.
- **Executed rigorous API and Integration testing**, validating the integrity of data flow across cloud-based infrastructures and third-party service integrations.
- **Standardized quality reporting metrics**, delivering data-driven insights and clear feedback to cross-functional stakeholders to facilitate informed go/no-go decisions.
- **Integrated quality assurance benchmarks into CI/CD mindsets**, contributing to process improvements that enhanced testing efficiency and ensured timely, high-quality software releases.

PROFESSIONAL SKILLS

- C & C++
- SQL
- Python
- HTML
- Blender
- Web Development

SOFT SKILLS

- Critical Thinking
- Quick Learner
- Teamplay
- Time Management
- Problem-solving
- Communication
- Leadership

LANGUAGES

- English
- Tamil
- Hindi

CERTIFICATIONS

- Selenium Automation
Testing with Java + AI

PROJECTS /INTERNSHIP

- Internship Experience: **Space Zee Technologies**
- Worked on a **House Price Prediction System**
- Paper Presentation - **Accident Detection System** Special Mention in Paper Presentation in **CIT Zorphix 2022**.
- Won **GOLD MEDAL** In **Research Day 2023** conducted by SRMIST.

EDUCATION

- **SRM University - 2024**
B.Tech in Computer Science & Engineering with specialisation in Artificial Intelligence and Machine Learning (AI & ML) - CGPA: 9.03
- **National Public School - 2020**
Higher Secondary Percentage - 80%
- **National Public School - 2018**
High School Percentage - 71%

SOFTWARE TOOLS

- **Project Management:** Zoho Projects, Jira
- **Collaboration & Communication:** Gmeet, Teams
